## JASON LATZKE Minnesota License No. 45874

## Statement of Evidence:

East Quarter Corner of Section 6, Township 107 North, Range 39 West, 5th Principal Meridian, Murray County, Minnesota.

- 1861 July, Set post in mound.
- 1906, October, Survey record for section 5 shows a white limestone 5x8x12" at the corner. It also shows a distance of 2593.4ft to the Southwest section corner and 2520.8ft to the Northwest corner.
- 2008 November, Corner certificate filed by Perry Zieske shows that he set a 1" iron pipe with cap #23008 at the corner after excavating and finding nothing. He lists coordinates at: N: 192579.58 E: 553479.93
- 2020 September, Westwood Professional Services searched and found an iron with cap #23008 per 2008 corner certificate. 1906 survey distance for West line of Section 5 in 100ft short. I excavated at 2594ft north from the SW corner of Section 5 and found nothing (it appeared from 1906 survey that the distance 2520.8 to the NW corner might be in error and the true distance was supposed to be 2620.8) I accepted the found Zieske iron and set reference ties.

Analysis of the recovered data, field evidence and survey measurements, indicates that the monument found is the correct perpetuation of this corner. For additional information concerning this corner please contact Westwood Professional Services.
