County Recorder 

By _____, Deputy
DOCUMENT NO. _____

North Quarter Cor. Sec. 23 T107-R41W

Statement:

August 1861

Original Government Land Office Surveyor L. G. M. Fletcher records in his field notes, "built mound with trench pits, charred stake, per instructions."

Sept. 6, 1989

Duane A. Bonnema, LS Reg. No. 14895, dug around the Corner post to a depth of 3 1/2 feet. Remnant pieces of wood, which appeared to be typical of the original oak stake, were found along with several small stones which extended to a depth of 3 1/2 feet. The bottom of the hole was probed, however no additional evidence was found. The fence extends in the 4 cardinal directions and has been there for a long time. An aluminum capped Minnesota Department of Transportation Square Iron was placed at this location. The traces of the wooden post and the stones, found to a depth of 3 1/2 feet, seem to be the best available evidence and is in harmony with the long standing property line fences.
