DOCUMENT NO. 164602

Statement of Evidence:

MINNESOTA DEPARTMENT OF NATURAL RESOURCES, BUREAU OF ENGINEERING.

North Quarter Corner of Section 6, Township 105, Range 42, 5 P.M.  
Murray County.

Corner originally set by Government Land Office in 1866. A post was set - deposited charcoal and made pits and mounds. In July, 1953, a Dept. of Natural Resources Engineering crew assumed the corner but the field notes don't state what was set or the procedure used. However, their sketch shows corner to be at intersection of fences north, east and west.

In August, 1973, said Dept. of Natural Resources Engineering contacted the Register of Deeds and County Engineer but no information was available. Said Bureau of Engineering survey crew assumed the corner and set a 3/8" x 24" iron rod next to a fence corner at the intersection of fences north-south and east-west. Derald Karssen, 50 more or less, owner of the South Half of the Southeast Quarter of Section 31, knew of no marker, but said that the corner fence post is assumed to be in the quarter corner location. The owner of the West Half of the Northeast Quarter of Section 6, Township 105, Range 42, 32 years old more or less, was contacted but he was unable to give helpful information.
