Recorder's Office at on the day of OCT 28 2008 County Recorder arms V Johnson By , Deputy DOCUMENT NO

Statement of Evidence

Original Township Plat indicated the subdivision was surveyed by G.M. Fletcher with date of contract of July 11th 1861.

Murray County Highway Department records indicated that they dug with a backhoe in center of intersection a 6' X 12' X 4.5' deep hole and found nothing.

On 9/13/2008 we dug with a backhoe in the center of intersection and found an undisturbed road bed a little over 4 feet deep. After digging thru old road bed we found a 1" X 4" wood hub, 12" X 10" stone, concrete and lath. We set 1" iron pipe with a yellow plastic survey cap over top of stone and accepted center of stone as corner position.
