Signature

Joshua M. Stern, Minnesota Registered Land Surveyor #46169

Date

5/13/26

STATEMENT OF EVIDENCE

East Quarter Corner Section 2, T108N-R43W

- 1866** JW Bishop was contracted by the United States Government Land Office to perform the Original Public Land Survey in this township. Bishop records in his field notes that he “a post in mound for ¼ Sec. cor.”
- 1899** Murray County Survey Record Book for Section 1, T108N-R43W, notes “stone” at corner position, but does not dimension to any neighboring corners.
- 1953** Minnesota DNR field notes and survey of WMA 00008-53-88, File G-196X shows the corner position, dimensions to the corner position, but does not state what type of monument was in place at the time of the survey.
- October 2025** Bonnema Runke Stern field crews searched for the 1899 stones called for in the County Survey Records but did not find any evidence of the stones. Field crews also search for monuments called for in the 1953 MN DNR surveys, only corner fence posts were found. With no other available evidence, a 5/8” x 15” rebar with a plastic cap stamped “46169” was set by practical location best fitting the found fence posts from the 1953 DNR Survey and a fence to the north.
