5/13/26

STATEMENT OF EVIDENCE

North Quarter Corner Section 1, T108N-R43W

- 1866** JW Bishop was contracted by the United States Government Land Office to perform the Original Public Land Survey in this township. This corner was not set as a part of the Original Public Land Survey.
- 1899** Murray County Survey Record Book for Section 1, T108N-R43W, notes “Gov. stake mound and pits” at corner position but does not dimension to any neighboring corners.
- Unknown** Murray County Section Corner tie records shows the corner position and dimension to neighboring corners but does not mention if a monument was found.
- October 2025** Bonnema Runke Stern field crews searched the area with a metal locator and found a 2” aluminum capped iron rod. The found monument matched distances shown on the Murray County corner tie records and was accepted as the best available evidence for the corner position. The found monument is 0.67 feet north of a straight line between the S¼ & SW corners of Section 31, T109N-R42W.
