Statement of Evidence: North Quarter Corner of Section 13, Township 107, Range 42, Murray County, Minnesota.

September 1861- The original government survey was performed by L.G.M. Fletcher. An over all distance of 80.16 chains is shown on the plat.

July 21, 2021 - O'Malley & Kron Land Surveyors, Inc. performed a survey in Section 12. The Murray County Survey website was searched for information on the location of the corner and non was found. The location of the corner was computed on line and equal distance between the Northeast corner of Section 14 and the Northeast corner of Section 13. The computed position lands at the intersection of a field line going East and West and a field line going South. The position was accepted as the corner. A new monument was placed and new ties made.
