- FOUND MONUMENT
- SET MONUMENT

Statement of Evidence

In September of 1858 W.J. Neely surveyed the north line of the township.

In August of 1861 J.W. Myers surveyed the East, South, and West lines of the township.

In September of 1861 J.G.W. Fletcher subdivided the township.

NE COR. SEC. 27-108-42

A survey by J.W. Woolstecroft dated November 1, 1917 denotes a stone at the corner. He also noted the corner was approximately 10 feet west of the center of the intersection.

On December 17, 2024, Bueltel-Moseng Land Surveying searched the area and did not find anything. We were unable to excavate for the stone as the road was frozen and would not be repairable. Set a 5/8" iron with seal #43844 10 feet west of the center of the intersection per notes from J.W. Woolstencroft's 1917 survey.

N1/4 COR. SEC. 27-108-42

On December 17, 2024, Bueltel-Moseng Land Surveying searched the area and did not find anything. Set a 5/8" iron with seal #43844 in the center line of the township road and in line with old well established fence running north.
