Statement of Evidence: Northeast Corner of Section 12, Township 107, Range 42, Murray County, Minnesota.

The Original Government Survey of the Township Boundary was performed by J.W. Myers.

June 7, 1955- Minnesota Department of Natural Resources performed a survey in Section 12. The survey does not have any ties to the corner but has a dashed line drawn at the section line.

July 21, 2021 - O'Malley & Kron Land Surveyors, Inc. performed a survey in Section 12. The approximate area of the corner was searched and nothing was found. The position of the corner was determined to be on a line projected from the Northeast corner of Section 14 through the occupation line near North Quarter corner of Section 13 to its intersection with the center line of 120th Ave. This position fit the Original Government Survey distance of 40 chains (2640 feet) very well and the location of the signs placed by MN DNR along their boundary line. A new monument was placed and new ties made.
